# ABOUT BLDC PUMP

---

## What We Do

---

BLDC PUMP focused on brushless DC water pump's R&D and production from 2009. Our high-quality brushless DC pumps are primarily used in various types of equipment as an essential component. It has high efficiency & high durability with a compact size and is very quiet. We are located in Shenzhen of China, and export our products all over the world.

## Our Values

---

While most companies pursue low costs to win at a price, we insist on providing the best quality products and comprehensive solutions to help our clients push their business forward.

Our competitive benefit lies in our offer of growth insights for professional pump solutions to power revenues and profits your business. We will serve as a stepping stone, assist you to make a leap from "Zero to One" in your new business.

We face a variety of problems from our customers on a daily basis. We love these problems and love solving these problems more. Because we helped our customers, and the process also made us more and more professional.

We have 10 Years of expertise in DC Water Pump's R&D and production. Therefore, we can make flexible and cost-effective customized services according to your actual needs.

## DMX512 Fountain Pumps Overview

DMX512 fountain pumps are designed for small or medium music fountains that could receive DMX512 signals directly to control the water column. No need additional DMX512 signal decoder.

Two other advantages of using our fountain pumps:

1. low voltage DC water pump is absolute safety
2. We provide accurate data of water column height according to different nozzles and pump models

## The Nozzles we use to test data

We have accurate data of water column height when using the following nozzles with our fountain pumps. But please note that you can use any nozzle you want.

Please note that we need an additional connector for conversion when the nozzle inlet does not match the pump outlet.

			
<b>Universal Nozzle DN15</b>	<b>Universal Nozzle DN20</b>	<b>Universal Nozzle DN25</b>	<b>Universal Nozzle DN40</b>
<b>Outlet: 5.6mm</b> <b>Inlet: 1/2" thread</b>	<b>Outlet: 6.8mm</b> <b>Inlet: 3/4" thread</b>	<b>Outlet: 8/10/12mm</b> <b>Inlet: 1" thread</b>	<b>Outlet: 12/13/16mm</b> <b>Inlet: 1-1/2" thread</b>

		
<b>Straight Column DN20</b>	<b>Straight Column DN25</b>	<b>ICE Tower DN25</b>
<b>Outlet: 19mm</b> <b>Inlet: 3/4" thread</b>	<b>Outlet: 20mm</b> <b>Inlet: 1" thread</b>	<b>Outlet: 32mm</b> <b>Inlet: 1" thread</b>

# DMX512 Fountain Pump DC55E-24160S

## Pump Main Parameters

<b>Model:</b>	DC55E-24160S
<b>Rated Voltage:</b>	DC24V
<b>Power</b>	80W
<b>Max Static Head:</b>	16 meters
<b>Max Flow Rate:</b>	2400 L/H
<b>Input / Output:</b>	1/2" thread

Please be note that all the pump parameters can be customized according to requirements. Any kind of customized services are welcome.

## A black, compact, cylindrical pump unit with a mounting base and threaded ports. The unit has a ribbed cylindrical body and a mounting base with two slots. It features a threaded port on the top and a larger threaded port on the side. The unit is shown from a three-quarter perspective.

<b>Model:</b>	DC60E-24120S
<b>Rated Voltage:</b>	DC24V
<b>Power</b>	120W
<b>Max Static Head:</b>	12 meters
<b>Max Flow Rate:</b>	3800 L/H
<b>Input / Output:</b>	1/2" thread

# DMX512 Fountain Pump DC80E

## Pump Main Parameters

<b>Model:</b>	DC80E-2480S / DC80E-24100S
<b>Rated Voltage:</b>	DC24V
<b>Power</b>	100W / 150W
<b>Max Static Head:</b>	8 meters / 10 meters
<b>Max Flow Rate:</b>	7000 L/H / 8000L/H
<b>Input / Output:</b>	1" thread

Please be note that all the pump parameters can be customized according to requirements. Any kind of customized services are welcome.
